

FORTUNES OF WAR TURNING AGAINST THE ALLIES

STRAITS CAMPAIGN
A PROVEN FAILUREDespite Discouraging Conditions
British Citizens Are Still
Undismayed

(By Associated Press.)

LONDON, Dec. 3.—Peace speculation strikes no responsive chord, despite the turning of the fortunes of war against the allies. Bonar Law, in the house of commons, said it is useless to believe that Germany will relinquish Belgium, Poland, Alsace and Serbia, until she is completely beaten. He answered the statement of Charles Trevelyan, in the house of commons that the ending of the war by negotiations would guarantee permanent peace, because it would stir up less hatred. Peace advocates are dwindling. Laborites, once lukewarm, are supporters of the war and are now backing Derby's recruiting plan. It is admitted that the campaign against the Dardanelles was a disappointment. Opportunities were lost at Loos and Serbia was lost. The attitude of Greece and Rumania is discouraging, yet the British are undismayed. They think that "Men and munitions" will win.

AUTHORITIES RELAX
BURIAL REGULATIONS

(By Associated Press.)

BERLIN, Dec. 3.—so frequent have been the pleadings of relatives to be allowed to disinter the bodies of their soldier-kin who have fallen at the front and been buried there, and bring them back home for reinterment, that the military authorities have relaxed their rules somewhat. Bodies of soldiers may now be brought back under the following conditions: If they lie in single, individual graves, not in graves in which a number are buried or in graves that form part of a row; the exact location of the grave must be indicated, by sketches if possible; a relative or friend who is vouched for as able to identify the body must superintend the disinterment; the body may be transferred only by horse-drawn vehicles and trains, not by automobiles; transfer on military trains is free, on others subject to the customary charges; the regulations in force in peace time govern the removal of bodies of men who have died from dangerous disease.

LAST TRIAL AT GENOA

What was probably the last trial that will ever be held in the old court house at the pioneer town of Genoa was tried before Judge Langgan recently. The old town is the scene of the first white settlement in Nevada and has a historic record. The new court house will be located at Minden and will be ready for occupancy by the first of the year. The last trial was a divorce case.

Ora Foy, who was recently found wandering about the streets of Reno in an aimless manner and who was suspected of being in a demented condition, went completely insane and threw the guards of the state asylum, who called at the police station for him, to the floor and was finally subdued by the chief of police. The demented man was removed to the asylum.

ARCHEOLOGICAL FIND
OF GREAT IMPORTANCE

(By Associated Press.)

ATHENS, Dec. 3.—A mutilated statue of Eros, discovered by French troops in the course of trench digging exercises on the island of Lemnos, may prove to be a find of great archeological importance. The statue was uncovered on the site of the ancient town of Haephestia, which once boasted 60,000 inhabitants, and the condition of the statue is said to give conclusive evidence that the city was destroyed by a terrible earthquake and not by an invader, as had heretofore been thought likely.

QUAKERS FEAR CONSCRIPTION

(By Associated Press.)

LONDON, Dec. 3.—For the English Quakers the possibility of conscription in Great Britain offers a very serious problem. It has even been suggested that there is danger of a split in the ranks of the church. A committee from the central organization is now engaged in sounding every male communicant of military age as to his intentions toward the society in the event of conscription.

SALE OF BEER CURTAILED

(By Associated Press.)

LONDON, Dec. 3.—A statement made public by representatives of the British liquor trade shows that the rigid restrictions on the sale of alcoholic beverages imposed since the war began, have curtailed the sale of beer about 17 per cent. But, on the other hand, there has been an increase in the sale of spirits of 19 per cent.

Drinking across the bar, it is added, has lessened to a marked degree, but the "bottle trade" has increased correspondingly. According to dealers, spirits are chosen in preference to beer for drinking at home as they are easier to carry.

MONARCH PITTSBURG
IS NEARING VEIN

The intermediate that is being driven in the Monarch Pittsburg between the 1000 and the 850 is now out 40 feet. There is a bet between Blumie and the Waugh Kid as to what the next twenty feet will bring forth. The wager is a hat. In order to be certain that Blumie would come through in case of loss, he is under bonds. The formation now is looking excellent. On this level it is expected that the downward continuation of the values found on the 850 will be exposed.

CORPORATION

BALKAN ASPECT IS
WHOLLY MODIFIEDAustrians Have Finally Taken
Monastir--Teutons Advance
in Montenegro

(By Associated Press.)

LONDON, Dec. 3.—The Russians have entered Bulgaria. Their route is unknown. It is believed that this will modify the entire Balkan aspect. The Austrians took Monastir. The Bulgarians, fearful of offending Greece, remained at Kenali, south of Monastir. They will enter later. It is believed that the Austrians will now engage the allies near Monastir. The Teutons are advancing in Montenegro. The Germans defeated scattered Serbians and took twelve hundred prisoners. The Serbian capitol is now at Avlona in Albania. The French newspapers said today that Greece and Bulgaria have concluded

a treaty giving Greece Monastir and portions of Serbia in exchange for participation against the allies. Rome believes that the Italians have already landed at Albania to help the Serbians. Fighting between grand duke Nicholas and the Turks in Caucasus is hampered by the weather. There are cyclones. The snow is ten feet deep. The allies have bombarded the Belgian coast. The Germans have defeated the Russians in a surprise attack at Styra. The Britisher Langdon Hall, carrying half a million cargo, was sunk. A portion of the crew reached land.

The Portuguese cabinet has declared to parliament its sympathy for the allies.

GETTING CONTRABAND
BY NEW DEVICES

(By Associated Press.)

THE HAGUE, Dec. 3.—New devices for smuggling contraband into Germany are being continually brought to light by the Dutch frontier officials. The latest discovery is that a train load of concrete building blocks bound for Belgium contained several thousand gallons of gasoline. The blocks were hollow, each one providing a receptacle for eight gallons of oil.

A week ago, a shipment of tombstones required for marking the graves of German soldiers was examined and it was discovered that the tombstones were hollow and filled with benzine. Several wagon-loads had crossed the frontier before the trick was uncovered.

NEW KLONDYKE IN
VALLEY OF THE PECK

(By Associated Press.)

SALONIKI, Dec. 3.—The valley of the Peck, in northern Serbia, which the Germans occupied early in their Serbian campaign, may one day rank with the Klondike, for most Serbians believe that it is rich in gold. Though the main deposits have never been located, the peasantry for generations have made a slender income from panning of wash gold, coming, it is believed, from a rich quartz reef far up in the hills.

The total output of gold from the smaller placer workings have averaged about \$15,000 a year for several generations. Occasional nuggets of considerable size have been found, and there is evidence that the Romans drew gold supplies from this region.

EMIGRATION FROM
IRELAND DECREASES

(By Associated Press.)

DUBLIN, Ireland, Dec. 3.—Emigration from Ireland for the first nine months of this year shows 7,572 persons sailing as against 17,057 for the first nine months of 1914, and the total figures of 30,967 for 1915 dropped to 20,314 in 1914. During the first four months of this year 4,653 emigrants went to the United States as compared with 12,609 in the same period of last year, while only 619 went to Canada as against 2,768. These figures, taken from the latest report of the Irish Registrar General, are interesting in view of the controversy that has arisen about Irish emigration since the war.
